

Fleet Safety

East Coast Risk Management offers fleet safety consultation to help you reduce the risk of accidents, injuries, and property damage while maintaining full compliance across every layer of your fleet.

"I just want to thank you again for coming out here and taking the time to give me more of an understanding of our fleet. What a great learning experience. I truly appreciate your approach to this and value your experience and expertise!"

-Holly Pieri, HR Manager, Reed Oil Company

Vehicle accidents are among the most costly injury and liability claims for businesses. Without a proper program in place, you may be putting the wellbeing of your employees and your company at risk. Our fleet safety experts know what it takes to keep your fleet safe and compliant. Help protect yourself against auto-liability and improve your bottom line with extensive experience from our team.

Services include:

- Customized Fleet Safety policies; addressing owned and non-owned vehicles.
- Fleet safety audits that reveal any hidden issues or potential problems.
- Best practices and requirements for your hiring process and driver qualifications, including MVR Review processes.
- Review of fleet maintenance practices and related records management.
- Best practice procedures for proper drug and alcohol testing.
- Establishment of safety committees to address fleet issues and create a safety culture.
- Supervisor training.
- Defensive driver training.
