

Managing Workers' Compensation and Unemployment Compensation claims can be complicated at best. Mistakes or oversights can result in undue hardship on your employee, unnecessary expenses for you, and unwanted legal issues for all parties. Even claims that are managed well can end up in court.

East Coast Risk Management offers Third Party Administrator Services custom-tailored for your business by professionals with years of experience managing claims for state-funded and self-insured clients. We will work with you to configure solutions that are specifically designed for your business' needs.

At East Coast Risk Management, our team of Third-Party Claims Administration professionals strive to take a holistic approach to your business; reducing the frequency and severity of claims, accelerating return to work and generating higher cost savings.
